QUADROPHENIA**

WITH THE RELEASE OF

'QUADROPHENIA: LIVE IN LONDON' DVD IN JUNE 2014

Filed at Wembley Arena on July 8, 2013

In 2012/2013, The Who embarked on the *Quadrophenia and More Tour*, performing their landmark rock opera in its entirety, marking the 40th anniversary of the original 1973 release of this double-album masterpiece. The critically acclaimed and highly successful tour closed at London's Wembley Arena, with the cameras rolling, to record the closing night of this historic anniversary tour.

Filmed on July 8, 2013, **QUADROPHENIA: LIVE IN LONDON** features The Who in peak form, performing *Quadrophenia* from front to back, in its entirety, plus a special set of some of their all-time greatest hits. The film captures the band's dynamic performance in front of their hometown crowd and features blistering performances of "The Real Me," "The Punk And The Godfather," "Doctor Jimmy" and a powerful performance of "Love Reign O'er Me." With HD screen backdrops, archival footage and today's advanced technology in sound, **QUADROPHENIA: LIVE IN LONDON** reunites The Who with bandmates John Entwistle, for "5:15," and Keith Moon for his signature song "Bell Boy." In addition to their performance of *Quadrophenia*, the band tear through classic tracks such as "Pinball Wizard," "Who Are You," "You Better You Bet," "Baba O'Riley," "Won't Get Fooled Again" and "Tea & Theatre" from their 2006 release *Endless Wire*, with the intensity and power only The Who can conjure.

QUADROPHENIA: LIVE IN LONDON will be available in various configurations including an expanded **Deluxe Metal Box** which includes the High Definition Blu-Ray™ and standard DVD of the concert film, both in 5.1 Surround Sound audio; a two-CD soundtrack of the show; and for the first time, a 5.1 Surround Sound mix of the entire 1973 album release of *Quadrophenia* on a Blu-Ray Audio Disc™. Extras include a 6-inch Mod Headlight sticker, a Mod Headlight button, and a booklet with liner notes and photos, all housed in a 10-inch metal container embossed with the movie-inspired, iconic, Mod bullseye logo painted on a Vespa SG scooter headlight.

QUADROPHENIA: LIVE IN LONDON will also be made available separately on High Definition Blu-Ray™, standard DVD, and a downloadable Digital Concert Video, with the complete audio from the concert film being released as a two-CD soundtrack and a downloadable Digital Album. The 5.1 remix of the original *Quadrophenia* (1973) will be released as a single-disc Blu-Ray Audio Disc™.

Based around the story of Jimmy – double-album masterpiece, *Quadrophenia* tells the tale of a young mod and his struggle to come of age in the mid-1960s. The project was intended to reflect the four characters of The Who and features some of Townshend's most inspired, personal song-writing – way ahead of its time in scope and purpose and is one of the most widely recognized albums of The Who's career because of its classic depiction of mod culture, its renowned imagery and the magnificent music and powerful performances. Newly envisioned by Roger Daltrey, the concert film combines archival footage of The Who and images of historical events that have rocked Jimmy's world over the past 40 years giving this magnum opus an enlightened modern twist.
